

Christopher Angelo

Software Engineer

Profile

Software Engineer & Community Management

Passionate about building things that improves the lives of people

Employment History

Co-Founder at Stealth Startup, San Francisco

October 2020 — Present

My first remote job at a San Francisco based tech startup. Joined at a very early stage as a back-end focused developer, ended up wearing many hats, juggling on things that are needed to make ends meet.

Education

Bachelor's of Computer Science, Binus University

August 2020 — July 2024

Took a special English-centered curriculum (Global class) which includes the following courses:

- COMP6049 - Algorithm Design and Analysis
- COMP6048 - Data Structures
- COMP6062 - Compilation Techniques
- COMP6736 - Distributed Cloud Computing

Extra-curricular activities

Speaker at SurabayaJS (Meetup #14)

October 2020

Co-Founder at Frontend Indonesia

August 2020 — Present

Frontend Developer & Content Manager at KawalCOVID-19

March 2020 — June 2020

Awards / Certification

IELTS Academic Overall 7.5/9.0 (C1 Advanced)

May 2022

National Data Science Competition 2020 - Beginners #50

November 2020

EFSET English Certificate 84/100 (C2 Proficient)

October 2020

Verified Discord Bot Developer

April 2020
